Business Report

(From April 1, 2018 to March 31, 2019)

1. Current circumstances of Sojitz Group

(1) Review of progress and performance in operations

In the year ended March 31, 2019, the deceleration of the Chinese economy and the trade friction between the United States and China created signs of slowdown in the global economy, which had previously been supported by strong consumption.

In the United States, the stock market suffered a temporary decline as a result of the uncertainty arising from the trade friction between the United States and China and debt issues stemming from the House of Representatives and the Senate being controlled by different political parties. Nonetheless, the U.S. economy proved firm as the country shifted toward quantitative easing and other flexible financial policies, tax reforms and other measures contributed to solid trends in personal and capital investment, and corporate performance remained stable overall. Conversely, the United States had adverse impacts on the global economy and commodity prices through its trade friction with China, its institution of stronger sanctions on Iran, and other aspects of its foreign policy.

Overall economic growth in Europe was sluggish, with the most notable stagnancy being seen in Germany. Factors behind this situation included poor growth in exports attributable to trade friction between the United States and China and the European Union and economic slowdown in China. There is also a rising sense of uncertainty in this region amid concern for the potential impacts of trade negotiations between the United States and Germany as well as for the United Kingdom's consensus-lacking withdrawal from the European Union.

China saw the implementation of economic policies pertaining to infrastructure investment and tax reductions. Meanwhile, there was concern for further economic slowdown. The potential intensification and medium- to long-term impacts of trade friction with the United States are also matters warranting attention going forward.

Asia enjoyed a stable economy due to relatively solid internal demand. Conditions were stable regardless of the impacts of economic slowdown in China as well as the fact that there was a trend toward people buying back the currencies of Asian countries as projections that the United States would be instituting an interest rate hike were retracted.

In Japan, relatively stable economic growth was achieved as the benefits of the solid trends in consumer spending and capital investment outweighed the impacts of the deceleration of the Chinese economy and trade friction between the United States and China.

Sojitz Group Performance

Sojitz Corporation's consolidated business results for the year ended March 31, 2019 are presented below. (Note)

(Note) Sojitz adopts the International Financial Reporting Standards (hereinafter referred to as "IFRS") in preparing the consolidated financial statements.

Revenue	Revenue was up 2.19% year on year, to ¥1,856,190 million, due to increased sales in the Metals & Mineral Resources Division, a result of rises in prices and transactions volumes for coal and other resources; in the Automotive Division, a result of the acquisition of new domestic and overseas automotive dealership and other businesses.
---------	--

Gross profit	Gross profit increased ¥8,576 million year on year, to ¥240,956 million, as a result of the rise in revenue.
Profit before tax	Profit before tax increased ¥14,539 million year on year, to ¥94,882 million, as a result of higher gross profit and an increase in share of profit (loss) of investments accounted for using the equity method due to higher profit at an LNG operation company.
Profit for the year	After deducting income tax expenses of ¥19,662 million from profit before tax of ¥94,882 million, profit for the period amounted to ¥75,219 million, up ¥13,525 million year on year. Profit for the period (attributable to owners of the Company) increased ¥13,577 million year on year, to ¥70,419 million.
Comprehensive income for the year	Regardless of the fact that foreign currency translation differences for foreign operations placed downward pressure on income and financial assets measured at fair value through other comprehensive income were down, comprehensive income for the year increased ¥3,622 million year on year, to ¥54,948 million, because of higher profit for the year. Comprehensive income for the year (attributable to owners of the Company) was up ¥3,508 million year on year, to ¥50,938 million.

Sojitz Group's operating performance and overview of business conditions by business segment are as follows.

Effective April 1, 2018, the Aerospace & IT Business Division, Infrastructure & Environment Business Division, and the Energy Division were reorganized to the Aerospace & Transportation Project Division, the Machinery & Medical Infrastructure Division, and the Energy & Social Infrastructure Division. In addition, the name of the Metals & Coal Division was changed to the Metals & Mineral Resources Division.

Automotive Division

Operating performance

Revenue was up 28.9% year on year, to ¥242,499 million, due to the acquisition of new domestic and overseas automotive dealership and other businesses. Profit for the year (attributable to owners of the Company) decreased ¥106 million, to ¥6,409 million, as a decline in share of profit of investments accounted for using the equity method counteracted the benefits of a rise in other income associated with a gain on the sale of an automobile-related company.

Overview of business conditions

Despite the negative effect of a weak currency in the wholesale business in Russia, increased demand for automobiles primarily in emerging countries, domestic and overseas automobile dealership businesses and the automotive parts quality assurance business in North America steadily contributed to achieving higher revenue than planned. Sojitz also promoted new automobile assembly and wholesale businesses and the Fintech service business to strengthen functions for future growth.

Aerospace & Transportation Project Division

Operating performance

Revenue was down 19.0% year on year, to ¥27,811 million, due to the absence of gains on new ship turnovers recorded in the previous equivalent period. Profit for the year (attributable to owners of the Company) rose ¥684 million, to ¥3,962 million, due to an increase in other income associated with gains on sales of aircraft.

Overview of business conditions

The business proceeded almost as planned, as the aircraft-related business where Sojitz has an advantage performed firmly and the Dedicated Freight Railways construction project in India proceeded steadily. During the year ended March 31, 2019, Sojitz executed measures to establish new revenue bases by expanding its business areas in the aerospace industry, such as expanding the business jet operations and participating in the operation of Shimojishima Airport (Miyakojima, Okinawa Prefecture), and pursuing airport-related businesses in Japan and overseas.

Machinery & Medical Infrastructure Division

Operating performance

Revenue was down 8.0% year on year, to ¥107,010 million, as a result of a decline in industrial machinery transactions. Profit for the year (attributable to owners of the Company) decreased ¥2,908 million, to ¥2,763 million, due to the rebound from earnings contributions from infrastructure-related projects recorded in the previous equivalent period.

Overview of business conditions

As the major business activities —industrial machinery and medical infrastructure—proceeded steadily, the division’s overall performance progressed as planned. Construction of facilities under the public private partnership (“PPP”) hospital operation project in Istanbul, Turkey, has been going steadily as part of our consistent efforts to expand the medical business. Sojitz has also engaged in new initiatives to establish new business models, such as investing in an engineering company in Thailand.

Energy & Social Infrastructure Division

Operating performance

Revenue was down 35.6%, to ¥74,791 million, as a result of lower petroleum product transactions. Profit for the year (attributable to owners of the Company) of ¥5,786 million was recorded, in comparison with loss for the period (attributable to owners of the Company) of ¥5,822 million in the year ended March 31, 2018. Main factors occurred in the year ended March 31, 2019 are a rise in other income associated with a gain on the sales of an overseas solar power business operating company and an increase in share of profit of investments accounted for using the equity method associated with higher profit of LNG operating company.

Overview of business conditions

This division achieved better performance than planned during the year ended March 31, 2019 due to the commencement and stable operation of domestic and overseas solar power generation business as well as favorable resource prices. Sojitz has expanded the range of its energy supply, power generation and other services by commencing its second gas-fired power generation business in the United States and the Jawa 1 Gas-to-Power project in Indonesia. Sojitz is working to establish a revenue base that is resilient against the impact of market conditions through expansion of its clean energy value chain in Japan and internationally.

Metals & Mineral Resources Division

Operating performance

Revenue was up 18.2%, to ¥383,170 million, as a result of higher prices and transactions volumes for coal and other resources. Profit for the period (attributable to owners of the Company) rose ¥8,581 million, to ¥30,463 million, due to higher gross profit and an increase in share of profit of investments accounted for using the equity method.

Overview of business conditions

Owing to higher prices and transaction volumes for coal and other resources, this division's business results far exceeded the initial outlook. During the year ended March 31, 2019, Sojitz sought to optimize its asset portfolio in the upstream business through asset replacement by acquiring the interests in a coking coal mine in Australia and reaching an agreement to partially sell a thermal coal mine in Indonesia. In addition, Sojitz concluded a contract to jointly develop next-generation battery materials for electric vehicles. Sojitz has thereby worked to establish a stable revenue base by promoting the development of new businesses in response to social demand and changes.

Chemicals Division

Operating performance

Revenue was down 2.0% year on year, to ¥505,101 million, following Sojitz's withdrawal from low-profit transactions. Profit for the period (attributable to owners of the Company) increased ¥282 million, to ¥8,984 million, as a result of an increase in gross profit stemming from a rise in the price of methanol.

Overview of business conditions

This division's performance was lower than planned, as the plastic resins business was affected by an economic slowdown caused by the trade friction between the United States and China, although the methanol business, one of Sojitz's major business activities, performed well due to higher market prices. During the year ended March 31, 2019, Sojitz promoted initiatives to reinforce its business foundations by withdrawing from low-profit transactions and expanding global trade.

Foods & Agriculture Business Division

Operating performance

Revenue was down 10.5%, to ¥128,293 million, following lower feed material transactions. Profit for the period (attributable to owners of the Company) decreased ¥1,749 million, to ¥2,280 million, as a result of a decline in the profit of overseas fertilizer businesses.

Overview of business conditions

Due to higher material costs and lower sales volumes in overseas fertilizer businesses, business performance was lower than initially planned. During the year ended March 31, 2019, Sojitz promoted initiatives to expand profitable business assets, such as acquiring additional interest in tuna processing business in China, initiating a large-scale refurbishment in the Philippines fertilizer business and acquiring a stake in and forming a strategic business alliance with a major food firm in Vietnam.

Retail & Lifestyle Business Division

Operating performance

Revenue was up 8.5% year on year, to ¥317,373 million, as a result of the acquisition of a major paper manufacturer in Vietnam and higher beef transactions. Profit for the period (attributable to owners of the Company) increased ¥85 million, to ¥5,724 million.

Overview of business conditions

The performance of this division was almost as initially planned, reflecting steady performance of the main businesses, such as consumer goods distribution logistics business, and an increase in meat transactions. During the year ended March 31, 2019, Sojitz acquired a major paper manufacturer in Vietnam, as it pursued measures to further expand and diversify the retail business in ASEAN countries where future demand growth is expected.

Industrial Infrastructure & Urban Development Division

Operating performance

Revenue was down 27.5% year on year, to ¥33,267 million, because of lower real estate transactions. Profit for the period (attributable to owners of the Company) decreased ¥1,052 million, to ¥1,087 million.

Overview of business conditions

The performance of this division was lower than initially planned due to lower sales from the domestic real estate business, although the overseas industrial park business performed firmly. During the year ended March 31, 2019, Sojitz sought to strengthen its earning power through the REIT, building facility management services and nursery management businesses in Japan. Internationally, it began work as a sales agent for a new industrial park in Vietnam, promoted the development of smart city and other comprehensive urban infrastructure, while providing active support for Japanese companies to go overseas through mutual cooperation with the local governments, etc.

(3) Financial Position

Consolidated Balance Sheet

Total assets on March 31, 2019, stood at ¥2,297,059 million, down ¥53,292 million from March 31, 2018. This decrease was largely a result of other current assets that were decreased in aircraft-related business.

Total liabilities at March 31, 2019, amounted to ¥1,635,451 million, down ¥89,776 million from March 31, 2018. This decrease was largely due to decrease in trade and other payables associated with tobacco- related transactions under current liabilities.

Total equity attributable to owners of the Company was ¥618,295 million on March 31, 2019, up ¥31,831 million from March 31, 2018. This increase was largely due to accumulation of profit for the year (attributable to owners of the Company) in spite of decrease in other components of equity due to fluctuation of forex and stock prices.

Sojitz consequently, on March 31, 2019, the current ratio was 157.1%, the long-term debt ratio was 82.9%, and the equity ratio* was 26.9%. Net interest-bearing debt (total interest-bearing debt less cash and cash equivalents and time deposits) totaled ¥584,711 million on March 31, 2019, ¥18,739 million decrease from March 31, 2018. This resulted in Sojitz's net debt equity ratio* equaling 0.95 times at March 31, 2019.

(*) The equity ratio and net debt equity ratio are calculated based on total equity attributable to owners of the Company.

(4) Consolidated Cash Flows

In the year ended March 31, 2019, operating activities provided net cash flow of ¥96,476 million, investing activities used net cash of ¥42,200 million, and financing activities used net cash of ¥74,907 million. Sojitz ended the year with cash and cash equivalents of ¥285,687 million, adjusted to reflect foreign currency translation adjustments related to cash and cash equivalents.

(Cash flows from operating activities)

Net cash provided by operating activities amounted to ¥96,476 million, consisted of business earnings and dividends received, etc. It was down ¥2,336 million year on year.

(Cash flows from investing activities)

Net cash used in investing activities totaled ¥42,200 million, down ¥44,207 million year on year. Investment outflows for investment in a U.S. gas-fired thermal power generation business and for the acquisition of Australian coking coal interests exceeded inflows from the sale of investments.

(Cash flows from financing activities)

Net cash used in financing activities amounted to ¥74,907 million, largely as a result of the repayment of borrowings. It was up ¥61,855 million year on year.

(5) Funding, etc.

Under Medium-Term Management Plan 2020, which began in the fiscal year under review, the Sojitz Group continued to advance financial strategies in accordance with the basic policy of maintaining and enhancing the stability of its capital structure. In addition, Sojitz has been

endeavored to maintain a stable financial foundation by holding sufficient liquidity as a buffer against changes in the economic or financial environment and by keeping the long-term debt ratio at its current level.

In the fiscal year under review, Sojitz did not issue straight bonds, which is one source of long-term funding. However, Sojitz will continue to closely monitor interest rates and market conditions and will consider floating additional issues whenever the timing and associated costs prove advantageous.

As supplemental sources of procurement flexibility and precautionary liquidity, Sojitz maintains a ¥100 billion long-term yen commitment line (which remains unused) and long-term commitment line totaling US\$1.9 billion (of which US\$0.31 billion has been used).

Management Policies

Based on the articles of Sojitz Group Statement and the Sojitz Group Slogan, the Sojitz Group is committed to maximizing two types of value: “value for Sojitz,” which contributes to the fortification of our business foundation and to ongoing growth, and “value for society,” which contributes to economic development on regional and national scales and to human rights and environmental awareness.

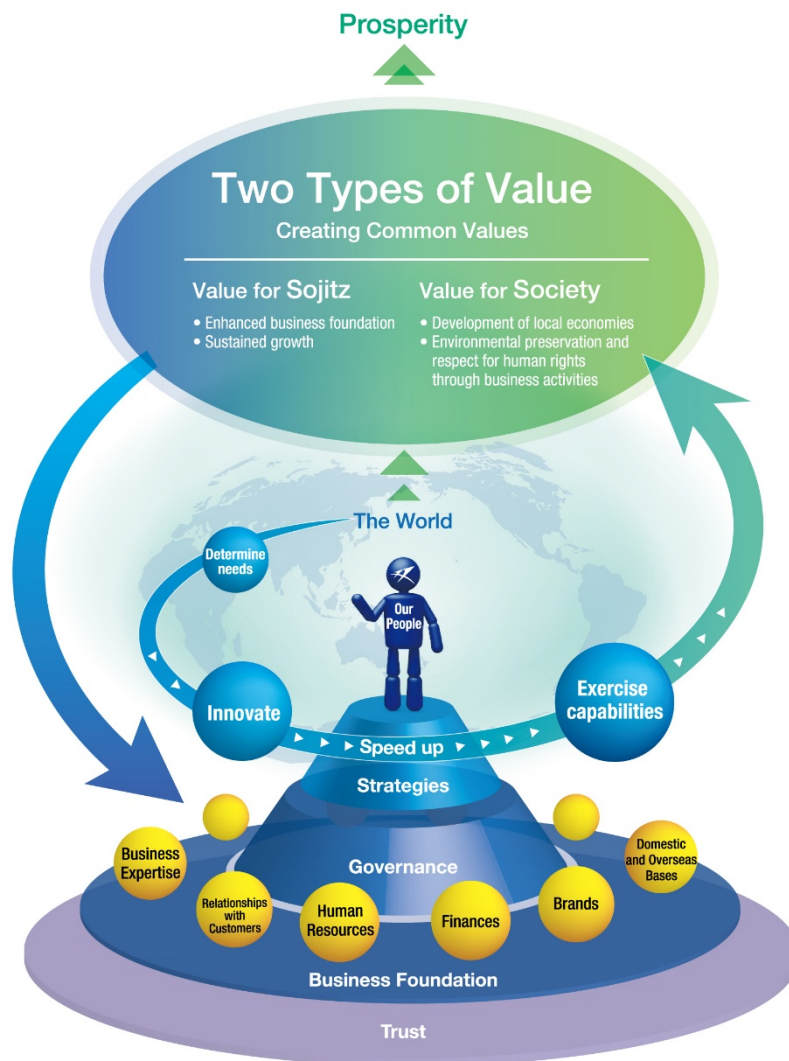

Sojitz Group Statement

The Sojitz Group creates value and prosperity by connecting the world with a spirit of integrity.

Sojitz’s Value Creation Model

Medium-Term Management Plan 2020

Medium-Term Management Plan 2020—Commitment to Growth—is the three-year plan established by the Sojitz Group started in April 2018. Initiatives are currently being implemented to accomplish the goals of this plan.

Under this plan, the Sojitz Group will pursue steady growth by increasing the value of its assets while managing cash flows to continue conducting disciplined investments and loans (total of ¥300.0 billion over the three-year period of the medium-term management plan). Our target for profit for the year in the final year of the plan will be ¥75.0 billion or more, which is to be achieved through average annual growth of approx.10% over the plan period from the previous year.

More information on Medium-Term Management Plan 2020 can be found on Sojitz's corporate website (<https://www.sojitz.com/en/>).

Medium-Term Management Plan 2020

~ Commitment to Growth ~

Under Medium-Term Management Plan 2020, we will endeavor to link prior initiatives to growth while engaging in ambitious undertakings to achieve steady growth going forward.

The targeted performance indicators in Medium-Term Management Plan 2020 are as follows.

Performance Indicator	Target
ROA	3% or above
ROE	10% or above
Net D/E ratio	1.5 times or lower
Dividend payout ratio	Approximately 30%

Based on Sojitz's shareholders equity costs of approximately 7% to 8%, targets for the management indicator of return on equity (ROE) have been set. In addition, Companywide targets have been formulated for return on assets (ROA) along with segment ROA targets for the final year of the medium-term management plan to facilitate efforts to achieve the ROE targets.

In the year ended March 31, 2019, the first year of Medium-Term Management Plan, the deceleration of the Chinese economy and trade friction between the United States and China created signs of slowdown in the global economy, which had previously been supported by strong consumption. In this environment, profit for the year (attributable to owners of the Company) of ¥70.4 billion was recorded. Factors contributing to this outcome included increased sales in the Metals & Mineral Resources Division, a result of rises in prices and transactions volumes for coal and other resources; the profits realized from new investments and loans executed under the period of the previous and current medium-term management plans; and rise in profit of investments accounted for using the equity method stemming from increase of a gain from LNG operating company.

In order to achieve the sustainable growth described in Medium-Term Management Plan 2020, the Sojitz Group will continue to adhere to its policy of conducting approximately 300.0 billion of new investments and loans. By enacting this policy, we will accumulate quality assets to accomplish the disclosed target of contributions to profit for the year (attributable to owners of the Company) of ¥10.0 billion or more from investments and loans in the year ending March 31, 2021. Investments and loans in the year ended March 31, 2019, amounted to around ¥90.0 billion. Specific investment targets included automotive, power, and other infrastructure projects and coking coal interests, areas in which the Sojitz Group has prior investment experience, and papermaking and containerboard operations in Vietnam, a country in which the Group boasts strengths.

Furthermore, the Sojitz Group is advancing initiatives targeting future growth. For example, a corporate venture capital fund was established to invest in start-ups in countries around the world and measures are being implemented to create innovation and acquire and reinforce functions.

Through the implementation of the Medium-Term Management Plan, Sojitz seeks to accomplish the goals of the Sojitz Group Statement and achieve ongoing growth. To this end, we are increasing our focus on sustainability in management and furnishing foundations and systems based on our six Key Sustainability Issues (Materiality) and on our policy of incorporating the resolution of environmental and social issues into Sojitz's business. In addition, sustainability challenges have been established as a long-term vision to define the Sojitz Group's stance toward long-term initiatives for addressing climate change, human rights, and other global social issues. (For more information on Sustainability, please refer to page 57.)

In the year ending March 31, 2020, the Sojitz Group will accelerate the strategies described in Medium-Term Management Plan 2020. At the same time, we will endeavor to boost the value of businesses and assets in which investment has already been conducted even in the current economic climate, which is characterized by high volatility in commodity prices and other conditions, while proactively accumulating quality assets for fueling ongoing growth with emphasis placed on cash flow management. These efforts will be made to ensure the accomplishment of steady growth.

Sojitz forecasts consolidated profit for the year (attributable to owners of the Company) of ¥72.0 billion in the year ending March 31, 2020.

3. Holdings of listed shares

<Policies for share holdings>

Each year, we conduct a quantitative assessment of listed shares held in each company as part of our shareholding policy to ensure that dividends or related profit earned from those shares exceeds the shares' equity cost (WACC). We also conduct a qualitative assessment, looking at whether the shares help improve our corporate value. Based on these assessments, we examine the value of retaining these shares. We retain those that are deemed to be worthwhile, seeking ways to achieve greater impact and benefit

from those shares. Meanwhile, for those shares which are deemed to now lack significant value, we set a deadline to improve their value. If there is no indication these shares will improve, we examine the possibility of divestiture. The Board of Directors and the Management Committee conducts this assessment for each lot of shares held in each company.

<Exercise of voting rights>

Based on the significance of holding shares of listed companies, we exercise our voting rights based on whether or not they contribute to sustainable growth and improved corporate value over the medium-to-long term for both Sojitz and the investment target. We also have a system of monitoring the status of exercise of voting rights.

The total amount of the aforementioned share remuneration represents the amount reported as expenses for fiscal 2018 associated with the share delivery points regarding the System (Board Incentive Plan (BIP) Trust). Basic remuneration (share) refers to the "fixed portion" with no link to business performance within the remuneration to be paid under the System.

● Outline of the remuneration system for company officers

(Decision policy, etc., for determining the remuneration for Directors)

The remuneration for Directors is decided by resolution of the Board of Directors through deliberations at the Remuneration Committee, which is an advisory body of the Board of Directors and is chaired by an Outside Director, with reference to benchmark data such as the remuneration level at other companies in the same industry and the business performance of Sojitz.

• Composition of the remuneration for Directors (excluding Outside Directors; hereinafter, the same shall apply)

At the 15th Ordinary General Shareholders' Meeting held on June 19, 2018, Sojitz introduced the System as a remuneration system for Board Members, which is closely linked to Sojitz's business performance and will ensure transparency and objectivity for the purpose of encouraging contributions to the improvement in Sojitz's performance and corporate value over the medium-to-long term. The performance-linked remuneration shall be

linked to profit for the year attributable to owners of Sojitz (hereinafter referred to as "Consolidated Net Profit for the year") in each fiscal year based on the rank of Directors.

As a result of the implementation of the System, the remuneration for Directors consists of "basic remuneration (monetary)" and "basic remuneration (share)," both of which form the fixed portion not linked to business performance, as well as "performance-linked remuneration (monetary)" and "performance-linked remuneration (share)." Basic remuneration is used for the delivery and granting of cash and a certain number of share delivery points based on the rank of Directors. Performance-linked remuneration is used for the delivery and granting of cash and share delivery points, both of which are linked to the amount of Consolidated Net Profit for the Year in each fiscal year during the Applicable Period based on the rank of Directors. For share remuneration, the total number of Sojitz shares to be delivered (at the rate of one Sojitz share per share delivery point) will be ascertained after a Director has retired.

<Breakdown of remuneration>

The System is designed to make performance-linked remuneration account for approximately 30% of basic remuneration if the Consolidated Net Profit for the Year in each fiscal year reaches the amount of the targeted Consolidated Net Profit for the Year in each fiscal year. Meanwhile, as for basic remuneration, the ratio of basic monetary remuneration against basic share remuneration is designed to become approximately 9 to 1, whereas performance-linked monetary remuneration against performance-linked share remuneration is to become 2 to 1.

<Content of basic remuneration (monetary)>

Fixed amount determined based on the rank of each Director

<Calculation method of basic remuneration (share)>

Fixed share delivery points = (Basic share remuneration by rank) ÷ (Monthly average closing price of Sojitz shares at the Tokyo Stock Exchange in July 2018)

(Basic share remuneration by rank: Amount determined based on the rank of each Director)

<Calculation of performance-linked remuneration (monetary)>

Individual performance-linked monetary remuneration = ((Consolidated Net Profit for the year in each fiscal year) × β% (Note 1) × (Aggregate sum of rank-based points for all Directors eligible) ÷ 539) × ((Rank-based points for each Director) (Note 2) ÷ (Aggregate sum of rank-based points for all Directors eligible)) (any fraction less than ¥1,000 shall be rounded down)

<Calculation method of performance-linked remuneration (share)>

Performance-linked share delivery points = ((Consolidated Net Profit for the year in each fiscal year) × α% (Note 1) × (Aggregate sum of rank-based points for all Directors eligible) ÷ 539) × ((Rank-based points for each Director) (Note 2) ÷ (Aggregate sum of rank-based points for all Directors eligible)) ÷ (Monthly average closing price of Sojitz shares at the Tokyo Stock Exchange in July 2018)

(Note 1) The value of coefficients α and β shall be adjusted according to the targeted Consolidated Net Profit for the Year in each fiscal year, and shall be disclosed along with such targeted Consolidated Net Profit for the Year after being resolved by the Board of Directors. Note that for fiscal 2018, the value of α and β shall be set to 0.078 and 0.155, respectively.

6. Corporate Governance Structure

Corporate governance structure (after the General Shareholders' Meeting on June 20, 2019)

(After the General Shareholders' Meeting on June 20, 2019, the corporate governance structure will be revised to further emphasize the supervision of execution of operations by having a Director without the rights of representation take the chair at the Board of Directors meetings to improve the effectiveness of independent and objective oversight of management by the Board of Directors.)

(1) Basic Approach

Sojitz Corporation strives to improve its corporate value over the medium-to-long term based on the “Sojitz Group Statement.”

◆ Sojitz Group Statement: “the Sojitz Group creates value and prosperity by connecting the world with a spirit of integrity.”

In order to materialize this, based on its belief that the enhancement of its corporate governance is an important issue of management, Sojitz has built the following corporate governance structure in its effort to establish a highly sound, transparent, and effective management structure, while also working toward the fulfillment of its management responsibilities and accountability to its shareholders and other stakeholders.

(a) Management and business execution system

Sojitz employs an executive officer system for the purpose of clarifying authority and responsibilities, and ensuring the smooth and swift execution of business through the separation of managerial decision-making from business execution.

The Board of Directors, chaired by the Chairman of the Board, is the highest decision-making body reviewing and resolving fundamental policies and most important cases concerning the management of the Group. The Board of Directors also supervises business execution through proposals of important matters and regular reports from the executing body.

As the executing body, Sojitz has established the Management Committee, chaired by the President, who is also the Chief Executive Officer. The Committee is responsible for the review and approval of the Group’s important managerial and executive agendas, from a Group-wide and medium-to-long-term viewpoint. In addition, Sojitz has established the Finance & Investment Deliberation Council for the review and approval of investments and loans, the Human Resource Deliberation Council for the review and approval of major human resource matters, and internal committees to handle issues to be addressed from cross-organizational perspectives, as executing bodies all directly reporting to the President & CEO.

The term of Directors and Executive Officers is set to one year, in order to respond swiftly and appropriately to rapid changes in the business environment and clarify their responsibilities to management.

(b) Monitoring and supervisory functions for management

Sojitz appoints multiple Outside Directors in order to receive appropriate advice and proposals on management of the Group from an outside, objective standpoint and to reinforce the supervisory function of the Board of Directors. In addition, Sojitz ensures appropriateness and transparency with regard to the appointment of Directors and remuneration by having Outside Directors serve as the chairs of the Nomination Committee and the Remuneration Committee, both advisory bodies to the Board of Directors.

Sojitz is a company with an Audit & Supervisory Board, which independently oversees and audits the operations of the Group.

(2) Company Institutions

(a) Board of Directors

As the highest decision-making body, the Board of Directors reviews and resolves fundamental policies and cases of the highest priority concerning Sojitz Group's management, and also supervises business execution by reviewing proposals on important matters and regular reports from the executing body. The Chairman of the Board, the Vice Chairman and the Outside Directors supervise the Executive Directors and overall system of business execution. They also provide opinions and advice on corporate governance.

- Policy for appointing Directors and composition of the Board of Directors

In selecting candidate Directors, Sojitz takes into consideration the diversity of candidates regardless of gender, international experience or other characteristics, to select multiple candidates who possess abundant experience, specialized knowledge, and advanced expertise from both inside and outside Sojitz. This ensures decision-making and management supervision appropriate to a general trading company involved in a wide range of businesses. Sojitz's Articles of Incorporation stipulate that the number of members of the Board of Directors shall be no more than ten. As of March 31, 2019, Sojitz has seven Directors (six male and one female), five of whom are In-house Directors with abundant business experience at Sojitz and two who are Outside Directors with objective, specialist perspectives and diverse knowledge.

- Procedure for nominating Directors

In line with the above nomination policy, the Board of Directors deliberates on the experience and quality as an officer with respect to each Director candidate based on the results of discussion at the Nomination Committee and resolves the candidate proposal for submission to the General Shareholders' Meeting for approval.

- Matters deliberated by the Board of Directors

The Board of Directors reviews and resolves fundamental matters concerning management among Sojitz Group, with regards to organizations systems, and important personnel, as well as matters regarding management philosophy and business plans, based on not only laws, regulations, and the Articles of Incorporation, but also internal regulations established for the Board of Directors. It also reviews and resolves important matters related to business execution, such as important investments and loans.

As for business execution other than these matters resolved by the Board of Directors, the President, the Chief Executive Officer, or the executing bodies reporting to the President & CEO, they are reviewed and approved by auxiliary bodies such as the Management Committee, the Finance & Investment Deliberation Council, and the Human Resource Deliberation Council depending on the contents, scale, importance, and risks inherent each matter.

- Support systems for Directors

Sojitz has a system for reporting to, providing information to, and communicating with In-house and Outside Directors in a timely and appropriate manner, to enable the Board of Directors to properly supervise management of Sojitz.

The bureau of the Board of Directors provides necessary information and materials in advance to ensure sufficient deliberation by the Board of Directors.

- Analysis and assessment of the effectiveness of the Board of Directors

Each year, Sojitz analyzes and assesses the effectiveness of the Board of Directors to improve its functions.

The results of the analysis and assessment for the fiscal year ended March 31, 2019, and the tasks ahead are as follows.

Analysis and assessment method	<p>A written survey and an individual interview were conducted for all Directors and Audit & Supervisory Board Members. The results of this survey were then assessed by a third party (an outside consultant).</p> <p>The analysis and assessment outcome based on the results of the third-party assessment and individual interviews was reported to the Board of Directors for a discussion on tasks to be addressed.</p>

Outline of the overall assessment result	<p>The aggregated survey results showed that the overall average score exceeded the standard, and the third-party assessment was favorable as detailed below. It is therefore confirmed that the Board of Directors is functioning appropriately and effectively as described below.</p>
Outline of the third-party assessment	<ul style="list-style-type: none"> ● From such findings as active discussions led by Outside Officers, appropriate restraints, an excellent description of bills on the agenda, appropriate composition of the Board of Directors and high competence of the secretariat, it can be concluded that the effectiveness of Sojitz's Board of Directors is fairly high. ● Comments in consideration of the number of Outside Directors exceeding one-third of the Directors were often heard not only from Outside Officers but even from In-house Executive Officers. Discussions on governance took place at the meetings of the Board of Directors, showing such a topic is shared among all Board members. This indicates the Board members' high dedication to enhancing the governance of the Board. ● It was found that support systems were needed to promote the understanding of items on the agenda and opportunities for communication among Outside Officers.
Tasks ahead to further increase the effectiveness of the Board	<p>Based on the results of the above analysis and assessment, Sojitz will continue working to improve the effectiveness of the Board of Directors, such as by conducting regular monitoring of the progress of the medium-term management plan and the operational status of the Nomination Committee; strengthening the alliance between Outside Directors and Outside Audit & Supervisory Board Members; providing explanations on the strategies of the business divisions and the points of discussion by the Finance & Investment Deliberation Council regarding investment and loan projects; and promoting Outside Directors' visits to the sites of Sojitz Group business operations.</p>

(4) Corporate audits, accounting audits and internal audits

Audit & Supervisory Board Members, the Accounting Auditor and the Audit Department boost the effectiveness of their respective audits by exchanging information to ensure their efforts are complementary and efficient.

(5) Respect for the rights of stakeholders

As expressed in the Sojitz Group Statement, Sojitz strives through its corporate activities to meet the diverse needs and expectations of our stakeholders throughout the world with integrity and to provide new value continuously. By doing so, Sojitz works to maximize two types of value: “Value for Sojitz,” including enhancement of the Sojitz Group’s business foundation and sustained growth; and “Value for society,” such as development of national and local economies, environmental preservation and respect for human rights.

To implement the Sojitz Group Statement and build stronger relationships of trust with stakeholders, Sojitz has established the Sojitz Guiding Principles, sustainability policies in accordance with international norms such as the Ten Principles of the UN Global Compact, the Paris Agreement, and SDGs (Sustainable Development Goals), and the “Sojitz Group Code of Conduct and Ethics” for compliance, which all Group officers and employees are expected to honor, and ensures they are made known and thoroughly complied with by each Group company as well as their officers and employees.

(a) Sustainability Initiatives

To maximize the two types of value referenced above, the Sojitz Group has defined six key sustainability issues (Materiality) for supporting the medium-to-long term sustained growth of the Group. Moreover, “Sustainability Challenges” has been established as a long-term sustainability vision.

<Key Sustainability Issues (Materiality)>

- Human Rights: Respect the human rights of people involved in our businesses
- Environment: Contribute to the global environment through our businesses
- Resources: Develop, supply and use sustainable resources
- Local Communities: Develop and grow together with local communities
- Human Resources: Promote opportunities for diverse human resources and workplace diversity
- Governance: Emphasize effectiveness and transparency

<Sustainability Challenges>

“We aim to create sustainable growth for both Sojitz and society by working to help achieve a decarbonized society through our business activities, and by responding to human rights issues, including those within our supply chains.”

Sojitz recognizes the three-year Medium-term Management Plan 2020 as a period for preparing to address the long-term vision and will grow business to contribute to the realization of a low-carbon society over the next decade while stepping up initiatives to guarantee human rights are always respected.

(b) Initiatives Targeting Employee Diversity

In order for Sojitz's global business to remain competitive over the long-term, the company continually works to ensure employee diversity by recruiting, developing, and utilizing the most talented employees regardless of gender, nationality, age, or personal values. Additionally, Sojitz strives to create policies and working environments which maximize the capabilities of all Sojitz Group members.

- Empowering women in the workplace

Sojitz has implemented several policies from a mid- to long-term perspective, designed to improve working environments/systems and change mindsets among employees and their bosses. These include a number of policies which seek to empower female managers and other women in the workplace. In October 2018, Sojitz became the first general trading company to join the "Ikuboss Corporate Alliance" as part of efforts to increase the number of managers who help women and other diverse talent reach their potential. Under the "Sojitz Commitment to Ikuboss," the company helps employees juggle both job responsibilities and child rearing, while also working to accommodate more flexible working styles. In March 2019, Sojitz was selected for the third time in a row for the Nadeshiko Brand, a designation by the Japan Ministry of Economy, Trade and Industry/Tokyo Stock Exchange recognizing listed companies which excel at promoting women's success in the workplace.

- Recruitment & development of global talent

Sojitz Tokyo headquarter's new graduate recruitment policy calls for foreign nationals to comprise 10% of the new hire intake. Additionally, Sojitz's operating companies overseas not only employ the best local talent, making the most of these employees to further Sojitz's growth strategies worldwide; the company continues to hold training programs at the Tokyo head office for Sojitz Group employees from abroad, as part of its efforts to develop core management candidates. In terms of developing employees at Tokyo HQ, Sojitz is proactively implementing programs to develop employees with a global perspective, such as by dispatching all employees for training overseas within their first five years, providing language training in the countries where those languages are spoken, and sending the company's best and brightest to MBA or LLM programs.

- Utilizing talent regardless of age

Sojitz ensures employees receive treatment appropriate to their job rank and grade, regardless of age or seniority. The company has also introduced an HR system which enables employees to be promoted at an earlier stage in their careers and is working to create a work environment which fosters high motivation and engagement from each and every employee.

Sojitz's human resources system also encourages engagement among employees nearing retirement age, enabling them to maximize use of their experience, knowledge, and connections.

- Employing persons with disabilities

In addition to employing persons with disabilities (PWDs) at Tokyo HQ, Sojitz has established a "special

associate company” as stipulated by Japanese law. By equipping this special associate company with a system which breaks down duties in a way appropriate to individuals’ disabilities and which enables staff to follow up with employees regarding their lives outside the office, Sojitz has created a working environment tailored to persons with intellectual or mental disabilities, thereby promoting employment of PWDs. As of March 31, 2019, Sojitz Corporation itself has not yet cleared the legally-stipulated benchmark for employment of PWDs, which was raised to 2.2% in April 2018. However, Sojitz has supplemented PWD employment through collaboration with this special associate company, and the company continues to encourage hiring of PWDs.

(c) Dialogue with Shareholders

Sojitz maintains a basic policy of engaging in constructive dialogue with shareholders. Sojitz continues to provide shareholders with appropriate and timely information on management policy and initiatives to achieve sustained growth and increase corporate value over the medium-to-long term. Shareholders’ opinions are then reported to the upper management and reflected in management decisions.

To ensure fair and appropriate disclosure of information to its stakeholders, including shareholders and investors, with respect for the Fair Disclosure Rule, Sojitz has established and observed a set of internal regulations including the “Regulations to Prevent Insider Trading” and the “Information Disclosure Regulations” that stipulate fundamental policies for compliance with laws and regulations, transparency, timeliness, fairness, consistency and confidentiality, and ensure strict compliance by executive officers and employees.

- Providing information to shareholders

Sojitz’s basic policy is to communicate information fairly and equally to all shareholders. Information regarding the Medium-term Management Plan and financial results is publicized via TDnet or the Sojitz website immediately after resolution by the Board of Directors. In addition, to promote the understanding of its business activities and business models, Sojitz has engaged in active disclosure of information, such as publishing Integrated Reports, holding briefings for individual shareholders and on business activities and distributing videos on the Sojitz website.

- Initiatives with regard to the Ordinary General Shareholders’ Meeting

The Notice of Ordinary General Shareholders’ Meeting is posted on our website in Japanese and English around four weeks prior to the Ordinary General Shareholders’ Meeting and is sent out by mail around three weeks prior to the meeting. Beginning in the fiscal year ended March 31, 2019, the Notice of Ordinary General Shareholders’ Meeting has become compatible with smartphones and tablets as well. In addition, Sojitz aims to make the Ordinary General Shareholders’ Meetings as interactive as possible through active measures including holding it at a different time from most other companies in Japan, using Internet voting, and providing a webcast of the Ordinary General Shareholders’ Meeting on the Sojitz website after the meeting has been held.

- Systems and initiatives for dialogue with shareholders
